VOLUNTEERING

TEDxMaviliSquare

November 2025 - May 2026

Web Designer

- As a volunteer Web Designer, I help shape the digital identity of TEDx Mavili Square through creative, responsive, and user-focused web design. I collaborate with the organizing and content teams to ensure a smooth online experience that aligns with TEDx's mission of sharing ideas worth spreading, while improving my skills in visual design, UX, and teamwork within a fast-paced, creative environment.

Department of Computer Science and Engineering, School of Engineering, University of Ioannina

March 2026 - June 2026

Εκπαίδευση

Laboratory Assistant

- I support students in the Object-Oriented Programming course by providing hands-on guidance during their Java lab hours. My role focuses on real-time problem solving: I help students debug their code, navigate lab tasks, and clarify the underlying theory of OOP when they hit a wall. It's a rewarding role that allows me to refine my own technical communication while helping others master the fundamentals of Java.

March 2026

Kathimerini [Article](#)

- The article explores the transformation of Ioannina from a traditional provincial city into a thriving innovation hub. It focuses on how the local ecosystem powered by the University of Ioannina and local tech hubs is enabling students and young professionals to launch global-facing startups without needing to move to Athens or abroad.
